Associate Professor. Seok Woo Lee

Nanyang Technological University, Singapore

Dr. Seok Woo Lee is an associate professor in the School of Electrical and Electronic Engineering, Nanyang Technological University. He was a postdoctoral scholar and a research associate in Stanford University. He received B.S. and Ph.D. from POSTECH and KAIST, respectively. He has worked on nanomaterials for electrochemical energy storage and conversion. In addition, he has utilized the microfabrication to develop various functional energy storage and harvesting systems including wearable electronic devices.
