
Dr. Ge Li

University of Alberta, Canada

Dr. Ge Li is an Associate Professor in the Department of Mechanical Engineering at the University of Alberta, Canada. Her research focuses on rational design and development of advanced energy materials, physicochemical characterization, electrochemical investigation, and the construction of energy conversion and storage devices. She obtained her PhD from East China Normal University in 2013. From 2010 to 2012, she was a visiting student at the University of California, Los Angeles, and from 2014 to 2018, she did postdoctoral studies at the University of Waterloo.
