Prof. Jin Il Kwak

Pukyong National University, Republic of Korea

Jin Il Kwak is an assistant professor in the Major of Ecological Engineering at Pukyong National University. She received her PhD from Konkuk University. She has published over 70 SCIE papers in the field of ecotoxicology and environmental risk research and has registered 16 Korean patents regarding ecotoxicity evaluation methodologies. Her expertise is in the ecotoxicity evaluation of chemicals, including engineered nanomaterials and nanoplastics. She has been a principal investigator for a project on the ecotoxicological effects of micro- and nanoplastics on invertebrates.
