Prof. Changsoon Choi

School of Electronic and Electrical Engineering, Sungkyunkwan University, Republic of Korea

Changsoon Choi received his B. S. degree (2012) from the Department of Material Science and Engineering at the Seoul National University and his M. S. degree (2014) and his Ph. D. degree (2020) from the School of Chemical and Biological Engineering at the Seoul National University. He was a postdoctoral fellow in School of Engineering and Applied Science, Harvard University (2020-2021), and a senior research scientist of Post-silicon Semiconductor Institute, Korea Institute of Science and Technology (KIST) (2021-2025). He is currently an assistant professor in School of Electronic and Electrical Engineering, Sungkyunkwan University. His research interests include bio-inspired optoelectronics and in-sensor computing.
