**Prof. Kyung Seok Woo**
UNIST, Republic of Korea

Kyung Seok Woo is an Assistant Professor in the Graduate School of Semiconductor Materials and Devices Engineering and the Department of Materials Science and Engineering at the Ulsan National Institute of Science and Technology (UNIST). He received his Ph.D. in Materials Science and Engineering from Seoul National University. Then, he joined Sandia National Laboratories, Texas A&M University, and Lawrence Berkeley National Laboratory as a postdoctoral researcher/fellow. His research interests include resistive switching materials and devices, with applications in neuromorphic computing, probabilistic computing, and hardware security. He is the recipient of the MRS Bulletin Postdoctoral Prize, the Advanced Light Source Postdoctoral Fellowship, and the Doyeon Research Award.
