
Assistant Professor. Myungsoo Kim

Ulsan National Institute of Science and Technology, South Korea

Myungsoo Kim is an Assistant Professor in the Department of Electrical Engineering at the Ulsan National Institute of Science and Technology (UNIST). His research centers on advanced nanomaterials, specifically focusing on their characterization and application in next-generation devices. Dr. Kim received both his Ph.D. (2020) and M.S. (2019) in Electrical and Computer Engineering from the University of Texas at Austin. Prior to his academic appointment at UNIST, he gained industrial experience as an R&D Device Characterization Engineer at Micron Technology.
