Prof. Byeongmoon Lee

Daegu Gyeongbuk Institute of Science and Technology (DGIST), South Korea

Byeongmoon Lee is an Assistant Professor at Daegu Gyeongbuk Institute of Science and Technology (DGIST). He received his B.S. and Ph.D. degrees in Electrical and Computer Engineering (ECE) from Seoul National University (SNU) in 2014 and 2020, respectively. Before joining DGIST, he worked at the Soft Hybrid Materials Research Center at the Korea Institute of Science and Technology (KIST) as a postdoctoral researcher. He then moved to Zhenan Bao's group at Stanford University as a postdoctoral researcher. His research focuses on advanced human–machine interfaces, human sensory augmentation, and robotic interfaces based on skin-integrated sensors and electronics.
