Vice President, Yoonkap Kim

Gumi Electronics & Information Technology Research Institute (GERI), South Korea

Yoonkap Kim is a vice president of Gumi Electronics & Information Technology Research Institute (GERI) in Korea. He received his B.S. and M.S. in materials science engineering from University of Seoul (2001), and Hanyang University (2003), respectively. He then earned His M.S. and Ph.D. in material science and engineering from Washington State University in USA (2007, 2012). From 2013 to 2016, He served as a researcher at the Korea Institute of Machinery and Materials (KIMM), where he developed nano-imprinting and transfer printing method for flexible electrodes and heaters. Since moving to GERI in 2016, his research has expanded to include flexible and stretchable electronic devices fabricated by various printing techniques, such as transfer, inkjet, 3D printing.
