Towards the Development of Wafer-Scale Integration Using 2D Materials

Prof. Kosuke NAGASHIO

The University of Tokyo, JAPAN

Kosuke Nagashio received the B.E. degree in Materials Science & Engineering from Kyoto University in 1997 and the M.E. and Ph.D. degrees in Materials Engineering from The University of Tokyo in 1999 and 2002, respectively. From 2002 to 2003, he was a postdoctoral research fellow at Stanford University, California. He is currently a Professor with the Department of Materials Engineering, The University of Tokyo. His research interests presently focus on the carrier transport in 2D materials and the crystal growth of 2D materials. Dr. Nagashio is a member of the Japan Society of Applied Physics (JSAP), the Materials Research Society (MRS), the IEEE Electron Device Society (EDS) and the American Physics Society (APS).
