Professor Qi Li

Tsinghua University, China

Qi Li is currently a full Professor at Tsinghua University, Beijing, China. He received his Ph.D. degree in materials science at Wuhan University of Technology in 2013. Before he joined Tsinghua University, he was a postdoctoral fellow at the Department of Materials Science and Engineering of the Pennsylvania State University. His research interests focus on polymer-based dielectric materials for electrical energy storage, transmission and conversion. He has co-authored 170 peer-reviewed papers in international journals such as Nature, Nature Materials and Nature Nanotechnology. He was the recipient of the MRS Postdoctoral Award, the IEEE Caixin Sun and Stan Grzybowski Young-professional Achievement Award, the Beijing Science and Technology Award (Natural Science Award, First Prize), and the National Natural Science Fund for Distinguished Young Scholars.
