Professor. Jiashing Yu

National Taiwan University, Taiwan

Dr. Yu received her B.S. in Chemical Engineering in 2003 from National Taiwan University, Taiwan, R.O.C and Ph.D. in 2008 from UC Berkeley/UC San Francisco Joint Graduate Group in Bioengineering. Dr. Yu worked as a postdoctoral researcher at UCSF Medical School and Cardiovascular Research Institute from 2008-2010. She relocated back to her alma mater in 2010 and was an Assistant Professor from 2010-2015 and Associate Professor from 2015-2019. Dr Yu is promoted to full Professor from Aug. 2019.

Dr. Yu has received multiple prestigious awards, such as the Young Investigator Awards from ISOMRM (International Symposium of Materials on Regenerative Medicine) , WCPRM (World Congress on Preventive and Regenerative Medicine), and BCRS(Biomaterials and Control Release Society), along with the NTU Best Advisor Award and the Outstanding Scholar Award from the Chih-Sheng Foundation. She has also been internationally recognized with the Asia Pacific Society for Materials Research Outstanding Achievement Award and the Chemical Society of Japan's International Lectureship. An accomplished academic leader, Dr. Yu has numerous publications in top-tier journals and is an associate editor and editorial board member for several international journals.
