Associate Professor. Justin J. Chung

Seoul National University Hospital, Seoul National University College of Medicine, Republic of Korea

Justin joined Seoul National University Hospital and Seoul National University College of Medicine in 2021. Prior to this appointment, he held the position of Senior Research Scientist at the Korea Institute of Science and Technology from 2017 to 2021 and served as a Postdoctoral Research Associate at Imperial College London from 2015 to 2017. He received his Ph.D. in Materials Science with support from the Rector's Scholarship Fund, as well as an M.Sc. in Bioengineering, from Imperial College London. He earned his bachelor's degree in Biomedical Engineering from Rensselaer Polytechnic Institute, where he was the recipient of the Rensselaer Alumni Scholarship and the Rensselaer Leadership Award.

His research group is dedicated to the design and development of advanced biomaterials that surpass the performance of conventional materials in biomedical applications. Through multidisciplinary approaches encompassing novel polymer synthesis and 3D printing-based biofabrication technologies, his team develops innovative medical devices for regenerative medicine and therapeutic applications.
