
Professor. Yuhang Wang

Soochow University, China

Yuhang Wang is a Professor at the Institute of Functional Nano & Soft Materials (FUNSOM), Soochow University. He received his Ph.D. degree in Chemistry from Fudan University in 2017. He then worked as a postdoctoral fellow at the University of Toronto from 2017 to 2020.

He was the recipient of the National Natural Science Fund for Excellent Young Scientists Fund Program (overseas), Jiangsu Specially Appointed Professors, and "Emerging Investigators in 2024" of the *Journal of Materials Chemistry A* and the *Chinese Journal of Chemistry*. He is a Youth Editorial Board Member of *SmartMat, Wiley,* and an Early Career Researcher Editorial Board Member of *Materials Today Sustainability, Elsevier.* He has more than 90 scientific publications and has been cited over 13000 times, with an H-index of 52. His research focuses on electrochemical CO2 capture and conversion.
